To Whom It May Concern:

It is my pleasure to recommend Walid G. Wahab and Wahab Construction to anyone seeking a contractor.

My husband and I recently renovated an apartment at the Setai in Miami Beach with Walid and his staff. They were consummate professionals throughout the entire process. The staff was responsive, and worked well with our designer and his suppliers. They did an excellent job of processing changes, and updating the budget.

We hired Walid because we had confidence in his taste as well as his expertise. For example, he recommended a new material for our floor which was attractive and cost effective. This suggestion was typical of the quality of his involvement, and led to a very satisfactory outcome overall.

I would not hesitate to recommend Walid and Wahab Construction for a job in an apartment or home.

Sincerely,

Jill E. Braufman
