Dear Walid,

I wanted to thank you for your outstanding performance as my general contractor on two significant projects which we've just completed here at the Bath Club. I was extremely impressed with your on time/on budget results.

Both of our projects were very complex from a design, lighting and A/V perspective. Rather than being intimidated, your people seem to thrive on the challenges presented by such complexity. Your foreman, Jorge was an amazing manager of subcontractors. He was relentless in ensuring the quality of their work and their timely completion. He also was always there to solve the seemingly unsolvable problem.

As you know, I will be doing another renovation here at the Bath Club. I look forward to working together with you on our third project.

I'd be delighted to talk with any of your prospective clients to explain to them how pleased I was with your work.

All the best,

George
