To Whom It May Concern:

I used Wahab Construction to work on three apartments and outside space which has become our "Beautiful Miami Beach Home".

It was an extensive project working with raw space that took over two years to complete. The service that Walid and his firm provided was excellent and the quality of work was outstanding.

My family and I are thrilled with our home and I am happy to recommend Walid and his firm without reservation.

Sincerely,

John J. Hannan
