

RECOMMENDATION LETTER

Friday 15th Mars 2013
Bruxelles,

To Whom It May Concern:

It is with great confidence that I recommend Wahab Construction for any Class A construction project in Miami.

I met Walid Wahab through a recommendation from an acquaintance while I was in the middle of a very difficult construction experience with another team of contractors and architects who were working on my Penthouse in Miami Beach.

Walid agreed to take over this failing, critical situation and was able to turn it around; through hard work and dedication the Wahab Team was able to transform an unstructured, disorganized mess into a streamlined and organized project and deliver my Penthouse in the manner I had always envisioned it.

Walid went above and beyond his fiduciary responsibilities as my contractor and handled many other issues that were required to deliver the project.

Hence, it is without hesitation that I am to recommend Wahab Construction as a most competitive, ethical and professional general contractor.

Their team is a pleasure to work with and they deliver the best quality work in Miami.

Etienne RUSSO
Ceo and Creative director of Villa Eugenie
