To Whom It May Concern;

I hired Wahab Construction to build out my penthouse in Surfside, Florida  
Walid Wahab assisted in providing me with a selection of Architects to  
choose from and then helped in assembling the local team of Engineers &  
Consultants. He is extremely involved in every aspect of the project and  
brings a tremendous amount of knowledge and resources to the table.

The construction process was very smooth and the quality was remarkable,  
the project was within budget and on time. I have enjoyed living in my new  
home from the moment I moved in. I would definitely hire them again.

It is with pleasure and confidence that I recommend working with Walid  
Wahab & Wahab Construction.

Sincerely,

Caroline Koc
